Professional Summery

I'm a passionate front-end developer with a strong foundation in ReactJS, MongoDB, and Firebase. I love creating user-friendly web applications that are both functional and visually appealing. I'm excited about the opportunity to work on projects that push the boundaries of innovation while focusing on making the web a better experience for users. My goal is to bring my skills in HTML, CSS, JavaScript, and modern frameworks to a team where I can grow, collaborate, and make a real impact.

Experience

Traideas (Remote - Narayanganj)

2023

Junior Front-End Developer

- Developed **4+ responsive, user-friendly web applications** using HTML/CSS, JavaScript, ReactJS, and Tailwind CSS, improving client satisfaction and user engagement.
- **MongoDB** was used to design and manage scalable, flexible data structures across multiple projects, enabling efficient storage and retrieval of dynamic content.
- **Firebase** was implemented for real-time database synchronization and secure user authentication, reducing backend development time and enhancing app interactivity.
- Collaborated with cross-functional teams (designers, backend developers) to design and implement features, maintaining high code quality and meeting project deadlines.
- Utilized **Git and GitHub** for version control and collaborative workflows across all projects, ensuring smooth team coordination and code integrity.
- Ensured **100% mobile responsiveness** and **cross-browser compatibility**, significantly improving accessibility and overall user experience.
- **Refactored legacy codebases** to improve performance and maintainability, resulting in a **25% faster page load time** on key applications.
- **Proactively introduced component-based architecture** using reusable React components, streamlining development and reducing code duplication across projects.

Echion Interactive (Remote - USA)

2018 - 2022

Web Design & Graphic Design

- Led the design and development of responsive websites, converting **PSD** designs into **HTML/CSS** and integrating with **WordPress**.
- Enhanced visual design with tools like **Adobe XD**, **Photoshop**, and **Lightroom**, aligning with client branding requirements.
- Worked closely with clients to customize **WordPress** themes and plugins, optimizing for performance and user engagement.
- Created marketing materials, web banners, and social media content that helped drive user engagement.

Education

Bachelor in Computer Science and Engineering **2020**

American International University Bangladesh | Graduated

- **Relevant Coursework:** Web Technology, Database Management, Software Engineering, Algorithms and Data Structures, Operating Systems

Higher Secondary Certificate **2014**

Milestone College | Science

Secondary School Certificate **2012**

Shahzadpur Pilot High School | Science

Technical Skills

- **Languages & Frameworks:**
 - **Front-End:** HTML, CSS, Tailwind CSS, Bootstrap, ReactJS, DOM manipulation
 - **Back-End:** Node.js, Express.js
 - **Programming Language:** JavaScript
- **Databases:** MongoDB, Firebase
- **Authentication & Security:** Firebase Auth, JWT (JSON Web Tokens)
- **Real-Time Communication:** WebSockets, Socket.io
- **Development Skills:** CRUD Operations, RESTful APIs, CI/CD Pipelines (GitHub Actions, Netlify CI, Firebase Hosting etc.), Version Control: Git/GitHub
- **Tools & Technologies:**
 - **Development:** npm
 - **Deployment:** Netlify, Firebase Hosting
- **Other:** WordPress, Adobe XD (UI/UX design), Photoshop, Lightroom

Projects

Diagnostic Center Management System

[Website Link](#) | [Frontend Code](#) | [Backend Code](#)

- Developed a full-stack web app for managing diagnostic center operations.
- **Technologies Used:** ReactJS, Node.js, Express.js, Firebase, MongoDB
- **Key Features:** User authentication, responsive design, user and admin dashboards, appointment and test result management, dynamic homepage, and search functionality.

CozyStay Hotel Booking Website

[Website Link](#) | [Frontend Code](#) | [Backend Code](#)

- Created a hotel booking platform with secure authentication and dynamic features.
- **Technologies Used:** ReactJS, Node.js, Express.js, MongoDB, Firebase
- **Key Features:** Responsive front-end, secure logins, room management, booking processes, interactive maps, SEO optimization.

Giftap - E-commerce Gifting Platform

[Website Link](#) | [Frontend Code](#) | [Backend Code](#)

- Developed a full-stack e-commerce website for personalized gifting solutions.
- **Technologies Used:** ReactJS, Node.js, Express.js, MongoDB, Firebase, Socket.io
- **Key Features:** Digital and physical gift options, gift scheduling, real-time delivery tracking, multi-user support (Admin, Seller, User), personalized messages, seller comparison, and live chat support.

Mobile Financial Service (MFS)

[Website Link](#) | [Frontend Code](#) | [Backend Code](#)

- Built a secure, role-based real-time features for users, agents, and admins.
- **Technologies Used:** ReactJS, Axios, Node.js, Express.js, MongoDB, JWT, Hash Encryption
- **Key Features:** JWT-based secure user authentication. Send money (with fees), cash-in (free), cash-out (1.5% fee), balance inquiry, and transaction history. Role-specific dashboards for User, Agent, and Admin

Training & Certifications

- **Full Stack Web Development Bootcamp with MERN Stack Projects** – Udemy, 2023
Comprehensive course on full-stack development using the MERN stack with real-world projects, API development, role-based authentication, and deployment.
- **JavaScript Course for Beginners: Build Real Projects in 2025** – Udemy, 2023
Hands-on, project-based course covering JavaScript fundamentals, DOM manipulation, modern ES6+ features, and building interactive web applications.

Additional Information

- **Bangla (Native)**
- **English (Communicational)**
